

CEAS Open Access Instructional Material Fellowships for Uyghur
Summer 2019

The Title VI grant provides funding (\$3,000) in summer salary for the development of new language learning modules for Uyghur to serve students of this language at KU and elsewhere. These online open access materials are to be designed as ten language modules that will be available through KU Open Educational Resources (OER) at <http://oer.ku.edu>. Each module is a stand-alone lesson and designed to assist advanced (second year or higher) language students. These can be listening and reading exercises with comprehension questions or simpler flash cards (see quizlet.com). Each module will be written up in a Word document and then uploaded to OER with the help of Jon Perkins at EGARC. Examples of these language modules can be found at <http://oer.ku.edu> under “Italian” and “Russian”.

Please provide a two page proposal with the following:

A general outline for modules. This is only one or two paragraphs and can be a general outline of the first and second year material you would like to cover. Take a look at the <http://oer.ku.edu> “Italian” and “Russian” examples.

Once we receive and review the short proposal, we will set up a meeting with Jon Perkins (jperkins@ku.edu) and he will discuss the module design and a time line for turning in the each module over the summer.

Submit proposals to Amanda Snider (asnider@ku.edu) or John Kennedy (kennedy1@ku.edu) by April 8th, 2019. We will respond to each applicant by April 12th.
